TASTE

Dear Valued Client,

Good day! We are pleased to introduce **Water Filtration PH**, a practical water filtration solution designed to provide convenient access to filtered drinking water at home, in offices, and in selected business establishments.

FOR HOMES

FOR OFFICES

FOR BUSINESSES

OUR WATER FILTRATION SYSTEM

Our wall-mounted alkaline water filtration system is designed with a **6-stage** filtration process to help improve water quality, taste, and overall drinking-water convenience.

6-STAGE FILTRATION PROCESS

PURE WATER. BETTER LIFE.

1

SEDIMENT FILTER

Helps reduce suspended particles such as dirt, sand, and rust.

2

PRE-FILTRATION

Provides additional particulate protection.

3

CARBON FILTRATION

Helps reduce chlorine and unwanted taste and odor.

4

FINE FILTRATION

Provides additional filtration of selected fine particles.

5

MINERAL / MEDIA STAGE

Supports the intended water-conditioning process.

6

ALKALINE STAGE

Raises the pH according to the system design.

KEY BENEFITS

Convenient access to filtered drinking water

Direct connection to a suitable tap-water source

Wall-mounted and space-saving design

Reduces dependence on regular bottled-water deliveries

Suitable for homes, offices, and selected establishments

Professional installation and customer support
